

MISSION

The Faculty of Physical Education and Sports is part of the "Alexandru Ioan Cuza" University of Iași, which is the oldest higher education establishment in Romania and a member of important international university associations and networks (Coimbra Group, EUA, IAU, RUFAC, AUF).

Our faculty provides a dynamic educational perspective, which combine harmoniously fundamental disciplines of human motor skills and the transdisciplinary modern academic training.

The main objective is to train specialists endowed with a set of knowledge, practical abilities and interdisciplinary skills which provide opportunity of real insertion on the labour market and the possibility of personal and creative development. Our belief is animated by the desire to train future specialists who can easily adapt to the fast dynamics of the sports world reality and who can gain success and excellence in the providing of educational and commercial sports services.

The Doctoral School in Science of Sport and Physical Education has the mission of cultivating the values of education and the field of Sports Science and Physical Education and to be actively involved in the development of scientific research in physical education and sports. This has as its main objectives the university training of highly qualified specialists in the Science of Sport and Physical Education, the continuous improvement of graduates through scientific research activities and projects, the realization of scientific projects, including interdisciplinary ones, with national impact and international, the development of scientific research in a permanent collaboration with similar institutions in the country and abroad.
